BMI ACTIVITY REPORT

School Name _____ Govt. High School (SJCHS)_____

Date _____ 10-08-2025 _____

Introduction

Our school organized a BMI (Body Mass Index) Activity for the students of Class One. The purpose of this activity was to measure the height and weight of the students and to create awareness about maintaining a healthy lifestyle.

Objectives

- To check the growth and physical development of students.
- To make students aware of healthy eating habits.
- To guide parents about the importance of balanced nutrition and exercise.

Method

Each child's height and weight were measured carefully. Using these measurements, the BMI of each student was calculated. BMI helps to understand whether a child is underweight, healthy weight, overweight, or obese according to their age and height.

Findings

- Most students were found within the healthy weight range.
- Some students were slightly underweight, showing the need for improved nutrition.
- A few students were in the overweight category, indicating the need for balanced diet and regular exercise.

Conclusion

The BMI activity was very useful in understanding the health and growth status of our Class One students. It highlighted the importance of a balanced diet, physical activity, and healthy lifestyle for young children.
