BMI ACTIVITY REPORT

School Name _____ Govt. High School (SJCHS)_____

Date _____ 10-08-2025_____

Introduction

A **BMI (Body Mass Index) Activity** was conducted for the students of **Class Four**. The aim of this activity was to record the **height and weight** of the students and calculate their BMI. This helps in understanding the overall **growth, nutrition, and health status** of children.

Objectives

- To monitor the physical development of students.
- To identify students who may need guidance on nutrition and exercise.
- To promote awareness about **healthy lifestyle habits** among children and parents.

Method

Each student's **height and weight** were measured using standard equipment. The **BMI formula** ($\text{weight} \div \text{height}^2$) was applied to calculate the Body Mass Index. The results were compared with **age-appropriate BMI charts** to classify the students into four categories: **Underweight, Healthy Weight, Overweight, and Obese**.

Findings

- A majority of the students were in the **healthy weight range**, showing good growth.
- Some students were identified as **underweight**, requiring improved nutrition and care.
- A few students fell into the **overweight or obese category**, which indicates the need for balanced eating and more physical activity.

Conclusion

The activity provided valuable insights into the **health and growth trends** of Class Four students. It highlighted the importance of **healthy food choices, daily physical activity, and regular monitoring** of children's growth.

SR No	Student Name	Father Name	Class	Height	Weight
1	Abbas Ali	Deedar Ali	Four	3.5	29
2	Abdul Rahim	Abdul Hafeez	Four	3.4	30
3	Abdullah	Munawar Ali	Four	3.6	28
4	Abdul Qudoos	Waheed Ahmed	Four	3.6	26
5	Ali Haider	Akber Ali	Four	3.5	25
6	Atteeque ur Rehman	Raffique Ahmed	Four	3.6	31
