Performance Summary of each KPIs

1. School Management Plan

The School Management Plan was submitted on 6th March 2023 and activities were conducted as per the plan. Major activities planned for the quarter were Final Term Examination and Result day.

2. Improved Staff Availability and Attendance

The staff availability challenge in most of the schools in terms of STR is completed. The EMO appointed teachers. However, the SNE of the schools were revised as per STR and level of schools and teachers were provided by the authority. However, staff attendance improved in the reporting quarter.

3. Improved Students' Enrolment, Attendance and Retention

The EMO conducted meeting with SMC to improve the strength of the students and performance of the students during the academic year.

4. Students' Assessment System

Final Term Examination was conducted in order to see the performance of the students and teachers

5. Continuous Professional Development (CPD)

Teachers were observed by the coordinators and HM to fill the teachers need analysis tool. This will help us to identify the learners' needs, desires and prerequisites

6. School Repair and Maintenance and Improved Community Engagement

The repair and maintenance was done in June and July like repairing of fans, winding of gate, doors and windows were installed.

6. Improved Health and Hygiene Practices and Sporting Activities

Not applicable in this quarter

Reporting on Key Performance Indicators (KPIs)

Sindh Madressah-tul-Islam Board

KPI 1: School Management Plan

a. Annual Management Plan (AMP)

The AMP was submitted in the start of the academic year. However, it is not applicable in the current quarter.

b. Implementation Framework (IF)

The IF was submitted in the start of the academic year. However, it is not applicable in the current quarter.

c. Development/Functioning of Education Management Information System (EMIS)

The EMIS was to be developed by the SMB; however, after the PPP Node started its own centralized EMIS, they conducted orientation for all EMOs and directed us to upload data to that centralized system. Therefore, a separate dedicated EMIS has not been developed yet due to a lack of clarity on whether we need to manage two parallel systems (EMIS) or only upload data to the EMIS developed by the PPP Node. This clarification is yet to be received from the PPP Node. In the meantime, we have been persistently uploading data as per the instructions of the PPP Node. On the other hand, we will be updating our data on excel sheet for the evidence

KPI 2: Improved Staff Availability and Attendance

a. Availability of Staff

Details of teacher availability for each school are provided in the table below.

Student Teacher Ratio

Most of the schools are facing a shortage of teachers (details of the school-wise STR are provided in the table below). In its technical proposal, the SMB committed to providing teachers at the early level, while the authority is responsible for providing teachers as per the revised SNE. However, due to the late handover of the schools, the SNE approval was delayed. The SMB team had frequent meetings with the DEOs of the relevant districts to revise the SNE according to the level of the schools and student enrolment. In this connection, the SMB also held a joint meeting with the District Support team at the DEO office in Malir, where the issue of the lack of teaching staff was raised. The SMB was informed that the proposal for the revision of the SNE has been sent to the Secretary SE&LD. The PPP Node assured us that they would pursue the case and get the required SNE approved. However, the SNE has not yet been revised, and teachers have not been provided as per the STR. Additionally, the SMB wrote a **letter (a copy of the letter is enclosed as Annexure 3)** to the PPP Node requesting the provision of teachers, but the problem has not been resolved yet.

Moreover, the SMB has appointed teachers in all schools, and the details of the number of teachers appointed are as follows:

The SMB has appointed seven teachers at GBPS Sindhi Jamaat Cooperative Housing Society, four teachers at GBELS Waryo Gabol, two teachers at GBPS Frontier Colony No. 1, and one teacher at GBSS No. 9 Sector 8/L. Here are the details of student teacher ratio for each school.

KPI 3: Improved Student Enrolment, Attendance, and Retention

a. Student Enrolment, Attendance Management, and Retention Plan

In order to improve students' attendance and retention, meetings were held with the SMC members and community members where the importance of regular attendance was reiterated. The community members and parents were informed about the Government policy of dropping out student after three months consecutive absence. In addition to this, meetings were held with the head masters regarding ensuring authentic attendance and filtering out the dropped-out students. A number of events were organized in all schools to emphasize the importance of attendance which are listed below.

b. Improvement in Student Enrolment, Attendance Management, and Retention Rates

As per government order, the final examination started from 17 April 2024 to 24 April 2024.

After the examination ended, the students were given off as the schools were selected for Board centers. The result was announced in all the schools at the end of May. We start new admissions in June 2024. An entry test was conducted for selecting new students. No changes occurred in the current quarter as it was the end of the session, no new admissions were taken and neither were the students dropout.

KPI 4: Lesson Planning and Student Assessment System

a. Annual Scheme of Studies (Not Applicable for RFP 1)

Not applicable in this quarter as it is submitted already at the start of the quarter.

b. Lesson Planning

The lesson plans are prepared by the teachers themselves. The lesson plans were prepared and implemented by the teachers appointed by the EMO. However, there has been resistance from the government teachers regarding the preparation and implementation of lesson plans in almost all schools. A syllabus breakup was provided to all teachers, class-wise and subject-wise (see the annexure 5). The lesson plans are made by the teachers on a weekly basis and are checked against the SOS, syllabus breakup, and daily diary by the coordinators and HM.

There has been resistance from most of the government teachers in preparing and implementing lesson plans. To overcome this problem, a training session was planned where all teachers were oriented on the importance of lesson planning and taught how to develop lesson plans. Consequently, the teachers appointed by the EMO have been preparing and implementing the lesson plans, but the government teachers remain reluctant to follow this practice. To address this issue, the EMO plans to conduct more capacity-building sessions for all teachers so they can adopt this practice.

c. Formative Assessments (In-House)

Final term Examination was conducted from class 4 to 8.

d. Summative Assessments (Internal)

Class 9th and 10th students appeared in SSC Board examinations.

e. Summative Assessments (External)
