REPORT ON FORMATIVE ASSESSMENT (3rd Year – 3rd Quarter)

Total Student Strength: 525

Subjects Covered: English, Urdu, Mathematics, and Sindhi

Classes: Grade 1 to Grade 9

Venue: Respective Classrooms

1. Introduction

As part of our ongoing academic monitoring system, the third quarter formative assessment was conducted from 17 February to 16 May. This evaluation aimed to assess the performance of students in core subjects through classroom-based observation instead of formal written tests. The goal was to better understand each student's learning habits, participation, and overall behavior within the classroom environment.

2. Objective

- To observe students' engagement and attentiveness in daily classroom activities.
 - To assess the completion and quality of classwork and homework.
 - To identify behavioral patterns that influence learning outcomes.
 - To promote cleanliness, discipline, and responsibility among students.
 - To provide a holistic view of each student's progress beyond academic scores.
-

3. Methodology

Participants: 525 students from Grade 1 to Grade 9

Subjects Observed: English, Urdu, Mathematics, and Sindhi

Assessment Format: No written tests were conducted. Student performance was evaluated based on classroom behavior, participation, and daily learning involvement.

Observation Criteria:

- Activeness and participation in classroom activities
 - Timely completion and quality of homework
 - Consistency and neatness in classwork
 - Personal hygiene and cleanliness
 - Respectful behavior and discipline
-

3. Key Focus Areas

Category	Sub Topics
Academic Engagement	Active participation, regular homework, classwork quality
Behavioral Observation	Discipline, respect for rules, classroom conduct
Personal Responsibility	Hygiene, cleanliness, responsibility for materials

5. Observations

- Majority of the students demonstrated regular participation and responsibility.
 - Many students showed improvement in completing homework on time and taking care of cleanliness.
 - Some students required motivation to maintain focus and discipline during class.
 - Younger classes especially benefited from continuous encouragement and structured routines.
-

6. Recommendations

- Continue behavior-based assessments for early grades to build stronger foundational habits.
 - Engage parents regularly to reinforce homework and hygiene routines at home.
 - Recognize and encourage well-behaved and responsible students through small rewards.
 - Offer mentorship or support sessions to students who show signs of low engagement or discipline issues.
-

7. Conclusion

The formative assessment for the third quarter successfully provided a comprehensive understanding of student development beyond academics. Through regular observation and teacher feedback, the school was able to identify strengths and areas needing attention. Continued focus on classroom behavior, responsibility, and engagement will foster an improved learning environment for all students.
